

## BACKLIT THERAPEUTIC PINK SALT INSTALLATION

Congratulations on your purchase of the beautiful Backlit Therapeutic Pink Salt! It is sure to provide both aesthetic and health benefits to your sauna experience. To install, please follow these simple instructions below. You may choose to keep or remove the LED light that came with your sauna.

1. If mounting above a wall mounted heater, the heater must be moved 1.5" away from the wall. To do this, vertically mount the pre-cut 2x4s with the provided screws where your heater is currently mounted. For indoor units, rest the 2x4s on the rails and secure. For barrel units, rest on the bottom horizontal brace and secure. Re-mount the heater at the same height it initially was.
2. Locate where you'd like the Pink Salt to be located. If mounting above the heater, locate it 1.5 – 2 feet above it. Drill a ½" – 5/8" hole which will serve as an outlet for the LED pigtail. Strategically place this hole so it will be covered by the Pink Salt when it has been secured to the wall.
3. Using a level and the provided 2.5" screws through the pre-drilled holes, secure the Pink Salt to your predetermined location.
4. Connect LED light to the waterproof power supply and mount the power supply wherever convenient on the exterior of your sauna.
- 5 The LED light can be controlled by the small switch located on top of the salt unit.

If you have any questions about installation, please do not hesitate to call us at **888-355-3050**, or send us an email at [sales@almostheaven.com](mailto:sales@almostheaven.com).
